

OPTIONAL PROGRESSIVE WAGER

The Progressive Jackpot Wager is an optional \$1.00 side bet that must be made prior to the delivery of any cards. Hand is based on player's 2 hole cards and the first 3 community cards (Flop) to make a 5-card poker hand. To begin each round, players must make their regular game's wager. Players must place the progressive wagers on the sensor in front of their betting position. The sensor will light up to indicate the wager has been accepted. A player making the progressive side wager also qualifies to win an envy payout. If another player at the table hits a hand associated with an envy pay, all other players who made the progressive side bet win the envy pay.

PROGRESSIVE WAGER PAY TABLE

Royal Flush	100% of Meter	\$1000 Envy Bonus
Straight Flush	10% of Meter	\$300 Envy Bonus
4 of a Kind	300 for 1	
Full House	50 for 1	
Flush	40 for 1	
Straight	30 for 1	
3 of a Kind	9 for 1	

Original wager is not returned.

\$50,000 maximum payout per player per hand does not apply to progressive payouts.

RULES AND REGULATIONS

Ultimate Texas Hold'em is an exciting game based on the version of Poker known as Texas Hold'em. The game also features an optional progressive side bet for a higher payout.

HOW TO PLAY

Before any cards are dealt, the Player must make two equal wagers called the Ante and the Blind Bonus. Each Player and the Dealer will then be dealt two cards face down. The Player will then have the option to either bet three or four times the Ante as a Raise bet, or he/she may 'Check' and do nothing. The Dealer will then turn over three community cards. At this point, any Player who has already 'Raised' may not bet again. If the Player 'Checked', he/she will have the option to bet two times his/her Ante as a Raise bet or again, he/she may Check. The Dealer will then turn over the final two community cards. Any Player who has already Raised (4 times or 2 times) may not bet again. All other Players must now either bet one time his/her Ante as a Raise bet or he/she must Fold, forfeiting all his/her Ante and Blind Bonus wager.

Each Player and the Dealer are trying to make the best possible 5-card Poker hand using their initial 2-card deal, plus the 5 community cards. The Player or Dealer may use 3, 4 or all 5 of the community cards to make his/her hand.

If the Dealer's hand outranks the Player's hand, the Player loses his/her Blind Bonus and Raise wagers.

If the Dealer's hand does not contain at least a Pair, he/she does not qualify and the Ante wager is a push. If the Dealer qualifies, the Player loses the Ante wager as well.

If the Dealer's hand and the Player's hand tie, all wagers push.

If the Player's hand outranks the Dealer's hand, the Player will be paid as follows:

Ante Wager – If the Dealer has at least a Pair, the Player will be paid even money on this wager. If the Dealer does not have a pair, this bet pushes.

Raise Wager – The Player will be paid even money.

BLIND BONUS WAGER

Blind Bonus Wager – If the Player wins with a Three of a Kind or less, this wager pushes. If the Player wins with a Straight or better, he/she will be paid according to the following payable.

HAND	PAYS
Royal Flush	500 to 1
Straight Flush	50 to 1
Four of a Kind	10 to 1
Full House	3 to 1
Flush	3 to 2
Straight	1 to 1

OPTIONAL TRIPS WAGER

The Optional Trips Wager must be placed prior to any cards being dealt. The Player is competing against the payable regardless of the outcome of his/her hand against the Dealer's hand. The Player will be paid according to his/her final hand, regardless of how the Dealer does, and regardless of when he/she Raises or if he/she Folds.

HAND	TRIPS BONUS
Royal Flush	50 to 1
Straight Flush	40 to 1
Four of a Kind	20 to 1
Full House	7 to 1
Flush	6 to 1
Straight	5 to 1
Three of a Kind	3 to 1
